

### The Wanderers after 1967

Below are some photos sent to me by Steve Calvert, they depict some of the Happy Wanderers who remained very active during the period 1966 to 1973 when the Club disbanded.

The original intention of this web site was to reproduce the Happy Wanderer's Cave and Pothole Club 1966 Journal. Since the site has gone live, I have been contacted by many past members who have suggested that I include more information about the discoveries made by the Club after the period covered by the journal. This document is intended only as a snapshot of that period, a much more comprehensive expansion of the web site will be created to reflect these later discoveries in the future.
